Sommaire

Volume 33, 1996

February / Février

R. Kerry Rowe and Preba Nadarajah	Estimating leachate drawdown due to pumping wells in landfills	1
Hideo Komine and Nobuhide Ogata	Prediction for swelling characteristics of compacted bentonite	11
Marcio S.S. Almeida, Fernando A.B. Danziger, and Tom Lunne	Use of the piezocone test to predict the axial capacity of driven and jacked piles in clay	23
S.J. Wheeler	Inclusion of specific water volume within an elasto-plastic model for unsaturated soil	42
Resat Ulusay, Dincer Çağan, Fehmi Arıkan, and M. Fatih Yoleri	Characteristics of biplanar wedge spoil pile instabilities and methods to improve stability	58
Huaren Dou and Peter M. Byrne	Dynamic response of single piles and soil-pile interaction	80
M.A. Gabr, J.J. Bowders, J. Wang, and J. Quaranta	In situ soil flushing using prefabricated vertical drains	97
R. Kerry Rowe and Brian L.J. Mylleville	A geogrid reinforced embankment on peat over organic silt: a case history	106
Z.Y. Lu and D.M. Cruden	Two debris flow modes on Mount Cayley, British Columbia	123
J.F. (Derick) Nixon and Kaye L. MacInnes	Application of pipe temperature simulator for Norman Wells oil pipeline	140

NOTES

Pierre Delage, Martine Audiguier, Yu-Jun Cui, and Michael D. Howat	Microstructure of a compacted silt	150
Andrzej Niemunis and Stefan Krieg	Viscous behaviour of soil under oedometric conditions	159
Robert P. Chapuis, André Contant, and Karsten A. Baass	Migration of fines in 0–20 mm crushed base during placement, compaction, and seepage under laboratory conditions	168
Vlodek R. Tarnawski and Bernhard Wagner	On the prediction of hydraulic conductivity of frozen soils	176
Tung-Wen Hsu	Soil restraint against oblique motion of pipelines in sand	180
J.A.R. Ortigao, R.P. Cunha, and L.S. Alves	In situ tests in Brasília porous clay	189

DISCUSSIONS

H. Chanson	Selection and application of a one-dimensional non-Darcy flow equation for two-dimensional flow through rockfill embankments: Discussion	199
David Hansen, Vinod K. Garga, and D. Ronald Townsend	Selection and application of a one-dimensional non-Darcy flow equation for two-dimensional flow through rockfill embankments: Reply	200
Ashok Chugh	Limit equilibrium computation of dynamic passive earth pressure: Discussion	202
Ernest E. Morrison, Jr., and Robert M. Ebeling	Limit equilibrium computation of dynamic passive earth pressure: Reply	203
Ashraf M. Ghaly	Brazilian tensile strength test of lightly cemented sand: Discussion	204
B.M. Das, S.C. Yen, and R.N. Dass	Brazilian tensile strength test of lightly cemented sand: Reply	206
John H. Schmertmann	Strength development with burial in fine-grained sediments from the Saguenay Fjord, Quebec: Discussion	206
D. Perret, J. Locat, and S. Leroueil	Strength development with burial in fine-grained sediments from the Saguenay Fjord, Quebec: Reply	207

ERRATUM

R. Kerry Rowe, C.T. Gnanendran, A.O. Landva, and A.J. Valsangkar	Erratum: Construction and performance of a full-scale geotextile reinforced test embankment, Sackville, New Brunswick	208
---	---	------------

Instructions to Authors	I-1
Recommandations aux auteurs	R-1
NRC Research Press publication policy	iii
Presses scientifiques du CNRC, politique de publication	vi
 April / Avril	
K.D. Eigenbrod and T. Issigonis Pore-water pressures in soft to firm clay during driving of piles into underlying dense sand	209
I.H. Wong, I.K. Ooi, and B.B. Broms Performance of raft foundations for high-rise buildings on the Bouldery Clay in Singapore	219
N. Yasuda, N. Ohta, and A. Nakamura Dynamic deformation characteristics of undisturbed riverbed gravels	237
P. Devillers, C. Saix et M.S. El Youssoufi Loi de comportement thermo-hydromécanique pour les sols non saturés : identification in situ des indices de compression thermique	250
Jordi Corominas The angle of reach as a mobility index for small and large landslides	260
S.Y. Oloo and D.G. Fredlund A method for determination of ϕ^b for statically compacted soils	272
Y.P. Vaid and S. Sivathayalan Static and cyclic liquefaction potential of Fraser Delta sand in simple shear and triaxial tests	281
Hans H. Vaziri Numerical study of parameters influencing the response of flexible retaining walls	290
I.J. Ferguson, W.J. Taylor, and K. Schmigel Electromagnetic mapping of saline contamination at an active brine pit	309
R. Kerry Rowe, C.T. Gnanendran, A.O. Landva, and A.J. Valsangkar Calculated and observed behaviour of a reinforced embankment over soft compressible soil	324
 NOTES	
Michel Bellanger, Jean-Michel Remy et Françoise Homand Influence des propriétés du milieu poreux sur la durabilité au gel des roches calcaires	339
Bassam Saleh, Abdallah I. Husein Malkawi, and Pierre A. Blum In situ determination of a rock mass modulus using a high resolution tiltmeter	350
Richard Fortier, Michel Allard, and Fernando Sheriff Field estimation of water–ice phase composition of permafrost samples using a calorimetric method	355
C. Derek Martin, Neil A. Chandler, and Rodney S. Read The role of convergence measurements in characterizing a rock mass	363
 DISCUSSIONS	
S.J. Boone Factors affecting at-rest lateral stress in artificially cemented sands: Discussion	371
Fanyu Zhu, Jack I. Clark, and Michael J. Paulin Factors affecting at-rest lateral stress in artificially cemented sands: Reply	373
